Mapping Techniques

Map Skills Exam

3D Island model

The UK in Context

Home land knowledge

Global Knowledge

**Application**  
 Take the map skills exam to apply your new skills to unfamiliar contexts.

**Communication**  
 Create a researched 3D map of an island to show case your skills.

## Year 7

Gain a knowledge of how to understand and interpret places, what 'our place' is like and opposing views of how it should fit into the wider world. Finish by understanding the physical feature which affects us most- the weather! And understand the biggest issue of your future - climate change!

## Year 8

Learn the concepts and keywords for Volcanoes, Earthquakes, Extreme Environments and global trade, aid and development! Work in more depth on projects, honing your empathy skills to evaluate positive and negative impacts of human actions and develop your ability to understand the different needs of people with different cultural contexts. Learn more of one of the important causes of climate change
